6. To see if the Town will vote to authorize the expenditure of the sum of \$60,000.00 for the purchase of capital equipment and capital improvements for the highway department and to authorize the withdrawal and transfer of \$30,000.00 of this amount from the Revenue Sharing Fund established under the provisions of the State and Local Assistance Act of 1972 and further to authorize the withdrawal and transfer of the other \$30,000.00 from the capital reserve fund known as the Grader Fund.

7. To see if the Town will authorize the transfer of \$30,000.00 from the Revenue Sharing Fund established under the provisions of the State and Local Assistance Act of 1972 for use in the purchase of a truck, tractor and a building for the highway department.

8. To see if the Town will vote to raise and appropriate the sum of \$42,500.00, the State to contribute \$42,500.00 under the Town bridge Aid Program and the Federal Government to contribute \$70,000.00 under the Federal Aid Off-System Funds for the purpose of reconstructing Bridge No. 147/098 located in James City on Nottingham Road and crossing Lamprey River.

9. To see if the Town will vote to authorize the Selectmen to borrow pursuant to the Municipal Finance Act through the issuance of notes or bonds \$42,500.00 for the purpose of reconstructing Bridge No. 147/098 on

Nottingham Road with such notes or bonds being scheduled for repayment in equal amounts over a 5 year period. (Requires a two-thirds vote)

10. To see if the Town will vote to raise and appropriate for the Mosquito Control Commission the sum of \$600.00 for the purpose of sampling and identifying the various types of mosquitos in Deerfield.

11. To see if the Town will vote to apply through the Federal Manpower Administration Program for, receive and expend a sum not to exceed \$5,000.00 for the purpose of employing students under the Manpower Administration Program.

12. To raise such sums of money as may be necessary to defray Town charges for the ensuing year, and make appropriations of the same.

13. To see if the Town will authorize the Selectmen to hire money in anticipation of taxes.

14. To see if the Town will authorize the Selectmen to sell property acquired through tax collectors deeds or otherwise.

15. To see if the Town will authorize the Selectmen to sell the grave sites in the Old Center Cemetery.

16. To see if the Town agrees to participate in the National Flood Insurance Program by directing the Board of Selectmen to complete the eligibility application and submit the required information to the Federal Insurance Administration.

17. To see if the Town agrees to adopt the following resolution:

WHEREAS, certain areas of Deerfield are subject to periodic flooding from streams, rivers and lakes, causing serious damages to properties within these areas; and WHEREAS, relief is available in the form of Federally subsidized flood insurance as authorized by the National Flood Insurance Act of 1968; and

WHEREAS, it is the intent of this Town Meeting to require the recognition and evaluation of flood hazards in all official actions relating to land use in flood-plain areas having special flood hazards; and

WHEREAS, this body has the legal authority to adopt land use and control measures to reduce future flood losses pursuant to New Hampshire RSA Chapter 31, 36, 156 and 156A.

NOW, THEREFORE, BE IT RESOLVED, That this Town Meeting hereby:

1. Assures the Federal Insurance Administration that it intends to enact and maintain in force for those areas having defined flood hazards, adequate land use and control measures with effective enforcement provisions consistent with the Criteria set forth in Section 1910 of the National Flood Insurance Program Regulations; and

2. Vests the Planning Board with the responsibility, authority, and means to:

(a) Delineate or assist the Administrator, at his request, in delineating the limits of the areas having special flood hazards on available local maps of sufficient scale to identify the location of building sites.

(b) Provide such information as the Administrator may request concerning present uses and occupancy of the floodplain.

(c) Cooperate with Federal, State, and Local agencies and private firms which undertake to study, survey, map, and identify floodplain areas, and cooperate with neighboring communities with respect to management of adjoining floodplains in order to prevent aggravation of existing hazards.

(d) Submit on the anniversary date of the community's initial eligibility an annual report to the Administrator on the progress made during the past year within the community in the development and implementation of floodplain management measures.

3. Appoints the Building Inspector to maintain for public inspection and to furnish upon request a record of elevations (in relation to mean sea level) of the lowest flood (including basement) of all new or substantially improved structures located in the special flood hazard areas. If the lowest floor is below grade on one or more sides, the elevation of the floor immediately above must also be recorded.

4. Intends to take such other official action within its powers as may be reasonably necessary to carry out the objectives of the program.

18. To see if the Town will vote to establish the following building regulation pursuant to RSA 156 as follows:

1. Building Inspector shall review all building permit applications for new construction or substantial improvements to determine whether proposed building sites will be reasonably safe from flooding. If a proposed building site is in a location that has a flood hazard, and proposed new construction or substantial improvement (including prefabricated and mobile homes) must (i) be designed (or modified) and anchored to prevent floatation, collapse, or lateral movement of the structure, (ii) to use construction materials and utility equipment that are resistant to flood damage, and (iii) use construction methods and practices that will minimize flood damage.

19. To see if the Town will vote to accept a parcel of land situated off Rt. 107 deeded to the Town by Mrs.

Madeline Lindsay for the general purpose of providing a forested and wild area for use by Town residents and their invitees, with trails and foot paths but no roadways for vehicles.

20. To see if the Town will vote to accept a parcel of land situated on Tandy Corner Road deeded to the Town by Mr. Paul O'Neal for the general purpose of being used as a park and recreation area.

21. To see if the Town will vote to elect by ballot the members of the Planning Board, beginning at the Town Meeting of 1977. (By Petition — Ref: RSA 36:4)

22. To see if the Town will vote to authorize the Selectmen to appoint the Highway Agent each year beginning with the term commencing on Town Meeting Day 1977. (By Petition — Ref: RSA 245:6)

23. To see if the Town will go on record as supporting a returnable beverage container system within the State of New Hampshire to reduce the litter on our roadsides and contribute directly to energy savings and conservation of our natural resources. (By Petition)

24. To see if the Town will vote to authorize the Selectmen to apply for, receive, contract for, accept from and spend any and all money made available to the Town by any state or federal agency.

Given under our hands and seal, this 12th day of February, in the year of our Lord nineteen hundred and seventy six.

SELECTMEN'S REPORT

We would like to start our annual report by thanking the many people who served on special study committees during 1975. The Selectmen have used the information in their reports as a basis for proposing action at the town meeting.

One of these committees was asked to study the cost of highway maintenance in the Town and to recommend changes that would significantly reduce costs. As you know, maintenance of the roads, both summer and winter, is the single largest expenditure in the Town budget.

After careful study, the committee recommended that the town purchase its own equipment and put the Road Agent on a full time schedule. Their recommendation, which the Selectmen hardily endorse, is contained in an article in the warrant which proposes buying a tractor and truck and erecting a building to house them. The \$60,000 cost to accomplish this would come from revenue sharing and the grader fund and would not increase taxes. They estimate that when in full operation, the town could save \$14,750 per year. In addition, the Board of Selectmen have established a 5 day, 40 hour week for the Highway Agent beginning April 1, 1976.

Another committee was established to study roads which were closed subject to gates and bars to determine if some of these roads should be reopened to provide access for fire and police protection. A number of new homes have been built on these roads or on roads connected to them. Opening the closed road would considerably reduce the time required to reach a house in case of emergency. The committee's report provided the Selectmen with a schedule of roads that should be reopened and the sequence in which they should be reactivated. We are now examining the various methods of taking action on these recommendations prior to implementing them.

In 1975 the Town voted to acquire a sanitary landfill site. The only suitable site available in town is located on Brown Road. Numerous test borings have been made and the State has approved some 20 acres of the area for sanitary landfill. Negotiations with the owners of the land have not been successful to date. New negotiations are underway at the present to acquire approximately 30 acres as opposed to the original 70 odd acres the town had hoped to acquire. At the present time we must stop using the dump at the Fairgrounds by July 1, 1976. We hope to get an extension to July 1, 1977 and have so requested this extension from the State.

All assessed land values were increased during 1975. This action was taken to bring assessed value closer to real market value. The State Tax Commission has on several occasions brought this matter to our attention indicating they expected the board to take action to increase land values. The 1975 assessed value book which was distributed to you reflects the changes made in land values.

We hope the general information booklet sent with the assessed value book answers some of your questions regarding your town. We will continue to provide you with as much information as we can on your town and its government.

We would like to thank all the people who have participated in their town government during 1975. Your unrewarded efforts are what makes Deerfield the Town it is.

ANNUAL TOWN REPORT FOR 1975

Municipal Budget Committee

The Municipal Budget Committee, known as the MBC, is an elected body of nine members each serving a three year term, plus one annually appointed representative from the Board of Selectmen and the School Board as full members with equal voting rights.

The purpose and responsibility of the MBC is to develop and present the two budgets, Town and School, to the voters for their approval, or modification, at the Annual Meetings. The MBC's prime concern is to present budgets which we feel meets the needs of the Town/School maintenance and growth, balanced against the ability of the tax base to support such requirements.

The final budget is derived after meetings with the Selectmen and the School Board, Department and Committees, individuals involved with expenditures, and, after the open hearings prior to the Annual Meetings. The open hearings are the most important as this allows the MBC to hear inputs from those who will be paying the bill.

The final budget as presented at the Annual Meetings can be reduced, accepted as is, or, increased by no more than 10% in total, by the voters. No monetary item not presented in the actual budget can be voted on at the Annual Meetings.

The MBC posts its meeting dates and anyone is welcome to attend. Also all minutes of the meetings are available from the Clerk for review.

REPORT OF THE PLANNING BOARD

Requests for the "Subdivision of Land" this year were effected by the overall economic situation, and the resulting high interest rate for loans.

During the year 1975, the Board processed and approved only twelve applications for minor sub-divisions, three transfers of land to increase lot size and one application for a major subdivision.

Pending are two minor subdivisions and one major subdivision located off the Mountain Road.

REPORT TO TOWNS

Upon the recommendation of town selectmen and city councils, the Division of Forests and Lands appoints a forest fire warden and several deputy forest fire wardens in each town and city every three years. The town or city warden is responsible for maintaining a force of men and adequate equipment to suppress any wildfire that occurs in his town or city during his term of appointment. The fire warden must authorize all open burning when the ground is not covered with snow. No open fires can be authorized between 9 a.m. and 5 p.m., unless it is raining, without the additional permission of the state district fire chief.

Any person wishing to kindle an open fire when the ground is not covered with snow must first obtain the written permission of the forest fire warden. Camp and cooking fires also require the warden's permission.

The Division of Forests and Lands, through its Forest Fire Service, assists all cities and towns in meeting these requirements by training the warden and deputy forces in wildfire suppression tactics, making hand tool suppression equipment available at fifty percent of cost, supplying pieces of Federal excess prop-

erty for use as fire attack vehicles and sharing up to fifty percent of the cost of wildfire suppression costs.

Wildfire prevention is also a joint state, city or town program. Smokey Bear is available from the Forest Fire Service for local fire prevention programs. Posters and Junior Ranger kits are available for distribution by local fire departments upon request to the Forest Fire Service. Each forest fire warden is expected to carry on a continuous wildfire prevention program within his town or city.

REPORT OF THE SOLID WASTE DISPOSAL COMMITTEE

Little further solid waste disposal developments occurred during 1975. Additional borings were taken at the proposed landfill site which indicated higher than anticipated ground water levels. A meeting was held with the N.H. Department of Public Health regarding these findings. It was felt that the site would still be acceptable although not as large an area could be utilized as was initially anticipated.

One additional location off Mt. Delight Road was investigated as a possible disposal area. This site was found to be unacceptable because of apparent high ground water and ledge conditions and access problems.

REPORT OF THE HEALTH OFFICER

A total of 22 sewage disposal systems were installed and approved in 1975, one of which was approved by a State inspector. Of the systems installed, 20 were for new homes and 2 were replacements for or repairs to existing systems.

Nine complaints were received and investigated. These ranged from sewage contamination in Pleasant Lake to rat infestations. Two of the complaints, concerning a single property owner, were not corrected and were referred to the Town Counsel for legal action. Sampling of both Pleasant Lake and the Lamprey River were continued and evidence of sewage pollution was found in the Lamprey River, particularly in the James City area. Further sampling will be necessary to determine the source of this pollution.

Of growing concern in Deerfield as well as other towns in the State is the possibility of chloride or salt contamination of private wells. With the cooperation of home owners, I hope to begin a long-term sampling program in at least one area of Town to determine the effect of road salt on the quality of well water.

Other activities included: Attendance at the Health Officers' Conference in Franconia; discussions with the N. H. Dept. of Public Health regarding the proposed sanitary landfill; inspection of sewage disposal systems for F.H.A. loans; meetings with the N.H. WS & PCC officials; testimony at public hearings; and consultation with the Board of Selectmen regarding various problems.

Respectfully submitted,
FREDERICK J. MCGARRY, P.E.

THE RURAL DISTRICT HEALTH COUNCIL

The Rural District Health Council continues to provide an invaluable service to our community. It helps to fill the gap between the extended care offered by the hospital, and the patients who will feel more at ease recovering in their own homes.

The well qualified staff member who so efficiently covers our town is Lucy Myers, R.N., B.S.

Our Health Council has means to put individuals in touch with various organizations that can assist the patients who are in need of medical and financial assistance.

Respectfully submitted,

DORRY GRACE

Vice President, Rural District
Health Council

ANNUAL REPORT 1975

The past year has seen an increase in the services provided by the Rural District Health Council coupled with an increase in the requests for service. As the federal government studies the cost of health care there is increased interest in home care and preventive medicine as methods of reducing costs and improving health services. The Rural District Health Council continues to qualify as a certified home health agency, implementing procedures to continue to provide quality care.

In January 1975, Mrs. Marie Dexter, R.N. joined the staff in a dual role as Referral Coordinator at the Frisbie Memorial Hospital where she is a member of the Utilization Review Committee, and also as staff nurse for the agency providing skilled care for the towns of Barrington and Strafford. The addition of a Health Aide, Mrs. Joan Menez, has enabled the Council to better utilize the professional staff while continuing to provide quality care.

Along with the regular skilled nursing services provided in the home, members of the agency staff conduct adult screening clinics monthly in Northwood and Farmington which was requested by senior citizen groups in those towns. They also participate in the aftercare program in cooperation with the Strafford County Guidance Center and the Seacoast Counseling Center, assist local groups with area screening programs, participate in health planning and, by contract, supervise health aides in the Strafford County Homemaker-Home Health Aide Program. The Maternal and Child Health Program is very active providing regular physical examinations, immunizations and dental care for children 0-6 years enrolled in the Well Child Clinics. The agency staff also does home visiting to the patients participating in the Strafford County Prenatal and Family Planning Program and the Exeter Area Family Planning Program.

The strength of the Council lies in the efficiency and dedication of its staff. In addition to the two persons mentioned above, members of the professional staff are Mrs. Ardala Houle, R.N. Agency Supervisor; Miss Arlent Thorne, R.N., Maternal and Child Health Nurse; Mrs. Barbara Drew, R.N.; Mrs. Myrtle Walsh, R.N.;

Mrs. Lucy Myers, R.N.B.S.; Mrs. Bernadette Cameron, R.N.; and Mrs. Kathleen Hansen, RPT. The office duties are ably handled by Mrs. Norma Davis and Mrs. Eleanor Eaton.

The Rural District Health Council has been requesting \$1.00 per capita from member towns since 1969. As a result of the recent inflationary times and increase in services provided, it has been necessary, therefore, to increase the per capita request from each town by 10 cents to enable the Council to continue to provide these services.

During the past year the Council has made 271 home visits and 82 well child visits making a grand total of 353 for the town of Deerfield.

Anyone interested in additional information is urged to contact the Rural District Health Council, P.O. Box 563, 6 South Main Street, Farmington, N.H. Telephone 755-2989 between the hours of 8:00 A.M. and 4:00 P.M. Monday through Friday.

BUILDING DEPARTMENT

Considering the high cost of building materials and bank interest rates, construction in Deerfield for 1975 continued, and growth rate is very impressive. We now have 18 new custom homes, 7 mobile homes, 22 additions, 12 alterations, 11 new barns, 7 garages and 2 swimming pools.

ANNUAL REPORT

BOARD OF ADJUSTMENT

Appeals to the Board of Adjustment have shown a definite increase over the previous year with nineteen cases being recorded.

Regular meetings of the Board of Adjustment are held the fourth Tuesday of each month unless otherwise called by the Chairman.

All appeals made to the Board must be on forms that have been adopted and made available by the Board, forms are obtainable only from the Planning Board, the Building Inspector and the Board of Selectmen.

All appeal forms should be presented to the Clerk of the Board at least fifteen days prior to meeting date of any respective month to allow time for advertising and posting.

During 1975 the Clerk of the Board received and duly recorded nineteen applications of appeal.

All notices were duly published and posted by the Clerk of the Board as required by law.

Nineteen open hearings were held and the Board rendered the following decisions.

14—Appeals—Granted
4—Appeals—Denied

1—Appeal—Withdrawn
1—Denial—Appealed, Applicant did not show up
for hearing so decision of the Board remained the same.

BOARD OF ADJUSTMENT

DEERFIELD BICENTENNIAL COMMITTEE

Whereas this report originates with the Bicentennial Committee—We its members, wish to give due credit to the Ad Hoc Committee which was appointed by the selectmen for their untiring effort to bring the Recreation Field to its present state of accomplishment.

1. **Purpose of Project:** To involve all the people in Deerfield, male and female, old and young. This is because the benefits will come to all future generations of Deerfield residents.

2. **The Recreation Field:** Consists of 62 acres. It is divided into two parts. Four acres are to be developed for a hardball field, a softball field; and a soccer field. The remaining 58 acres are to be left in their natural state except with marked trails as nature paths.

3. **Progress to date:** The land has been cleared; survey for final grade has been made; growth in back area has been cut, chipped, and saleable wood or timber has been made. Blasting and removal of protruding ledge at the base of the slope has been accomplished.

4. **Work not accomplished during fall due to weather conditions:** The Ad Hoc Committee endeavored to complete spreading the loam on the hillside, fertilizing, seeding and mulching before winter set in. This work could not be done because of excessive rain and wet ground, and will have to wait till spring.

5. **Time schedule for Completion:** The culmination of the Recreation Field is to be complete in time for the Grand Centennial Celebration held at Deerfield Fairgrounds next September.

6. **Bicentennial Committee:** Was organized in 1974 by the Selectmen. It has a representative from each of the 22 town organizations, for the purpose of assisting in any way towards accomplishment of our project.

7. **The Gift:** This 62 acres of land was given to the Town in 1974 by Mrs. P. K. Lindsay.

8. **Work required for completion:** Haul and spread loam and gravel, clear land of stones in preparation of seeding, spread fertilizer, grass seed, mulch hay, develop playing fields, set up backstops, install fence for limited access, provide drainage system and develop a parking area.

9. **Sources of finance to date:** Town appropriations, town volunteer help with trucks, backhoes, and bulldozers, 3643rd Ordinance Co., N. H. National Guard, meals, money from the sale of buttons, hats, apples, coins at Fair Booth '74 and '75. Gifts from the following organizations and individuals:

Deerfield Community Church—Ladies Aid, Deerfield Garden Club, Deerfield Police—Ladies Auxiliary, Deerfield Fire Dept.—Ladies Auxiliary, Deerfield Women's Club, Deerfield Women's Relief Corps, Deerfield Little League, Deerfield Fair Association, Mr. and Mrs. Maynard Norwood—in memory of Leo Plant III, Mrs. Nancy Stevens, P. K. Lindsay Co., Mr. and Mrs. Roger Mathes, Willis Rollings, Paul Smith, Ray Heon, Jack Sherburne, Bruce Rollins, Keith Rollins, Ben Wyman.

10. **Conclusion:** Much more money, work of people both big and little will be required in 1976 if we are to celebrate completion of the Recreation Field as part of the 1976 Bicentennial.

Respectively submitted,

THE BICENTENNIAL COMMITTEE

DEERFIELD CONSERVATION COMMISSION ANNUAL REPORT

In 1975 the Conservation Commission completed the Ford Foundation grant to study land acquisition and conservation management methods. From a total grant of \$1,750.00 (including town appropriated matching funds), \$1,747.58 was spent. \$2.42 was returned to the Foundation. In accepting the Commission's report, the Ford Foundation has asked for future help from the commission, "as part of a full-scale evaluation of the Ford Foundation's Municipal Conservation Commission program."

Using local labor, volunteers, Work-Study and Independent Study students from UNH helped stretch our finances and opened up valuable new resources as well. For example, the Work-Study students wages were 80% funded by the University under a separate grant. As a result, the University has provided the Commission with a great deal of assistance.

A full set of aerial transparencies of the town were obtained. The Fire Department, Planning Board and Selectmen now have reproduced copies at a savings of over \$100.00 per set; the originals are kept by the Selectmen.

Under the direction of the Selectmen, conservation practices were started in 60 acres on Route 107. Located near the Geo. B. White School, this multiple-use area is ideally suited for teaching conservation. With the McNeil Woods, approximately 130 acres of land is in conservation usage.

A section of the Town Library will shortly contain conservation books and literature obtained under the Ford Foundation grant. Under RSA 346:3, all dredge and fill site applications within the town were processed.

In conjunction with the Planning Board, an extensive survey is being prepared for distribution to help

formulate a needed long-range plan for the Commission and provide valuable information for other town agencies. UNH Independent-Study students helped in preparing the survey and will assist in tabulating the results during the next college semester at minimum cost to the town.

Under the Ford grant, the Commission also sponsored a workshop on practical conservation matters attended by Deerfield residents and representatives from more than 20 surrounding towns. Because of the favorable response, we are planning another meeting during the coming year.

The "Earth Day" roadside cleanup and the poster and essay contest for our school children entitled, "The Land — Our American Heritage" were among some of the other projects carried out by the Conservation Commission.

During 1976 we hope to implement some of what was learned under the Ford Foundation grant and continue as a responsible part of town government.

CIVIL DEFENSE REPORT FOR 1975

I would like to thank everyone associated with civil defense for their help and assistance this year.

Surplus equipment was very bad this year. There is very little to choose from that could help the town. We bought a new spare tank for a Scott Air Pac which we got through Civil Defense Surplus two years ago. The tank cost us \$115; the Air Pac with one tank cost us \$15, so we have a unit worth \$425 for \$130.

At the present time we have papers in for a ¼ ton jeep for the Police Dept. and a set of file cabinets for the Planning Board.

Following is a list of supplies and equipment for 1975.

1975 ANNUAL REPORT OF DEERFIELD MOSQUITO CONTROL DISTRICT

As a result of the affirmative vote of the 1975 Town Meeting, a Mosquito Control District was formed in compliance with N.H. Statute RSA 437-A, purpose "to preserve and promote the public health and welfare by providing for the control of mosquitoes and other arthropods." Financing is at the will and pleasure of each Control District, based on the voters' view of the inherent costs to accomplish their wishes. An accounting will be given annually to the town. No appropriation was made for Deerfield, 1975.

Members of the District attended schools and meetings to learn what methods would be feasible for our area. Rockingham County, due to its proximity to Essex County in Massachusetts, is leading the state in the formation of Control Districts, with ten Commissions now in operation in Nottingham, Deerfield, Newfields, Newmarket, Exeter, East Kingston, Danville, Hampton, N. Hampton, Newington. The towns of Raymond, Candia, Stratham, Greenland, and Hampton Falls will be asked for similar Commissions at their 1976 town meetings. Ultimately it is hoped that all towns in the County will work cooperatively to obtain the maximum benefit of time, talent and monies spent.

A wetlands map of Deerfield has been given to us, to be used as the basis of an integrated program to (1) determine breeding sites (only stagnant waters), and (2) distribute educational material to property-owners regarding steps they can take to reduce mosquito-breeding on their own property. We will also keep current on many new control methods, such as surface-feeding fish, juvenile hormones to prevent maturity of larvae, ditching, and only resorting to chemicals (approved by a very discriminating Environmental Protection Agency) if indicated in some cases.

Dependent upon the amount appropriated by the Town for 1976, we hope to employ entomology students from U.N.H. in the summer months to map the town, taking samples from selected areas to determine which varieties exist here (there are some 30 varieties in N.H., only 8 of which feed on animal or human blood.) The information they collect will be coordinated with the population centers (assuming that in the beginning stages we can't cover every mile of the town.) Money will also be used to purchase laboratory test materials, stationery and report forms, services, etc.

To the extent that chemical control is required, it will consist of two types: (1) **Larvaciding** of stagnant water breeding sites to control at the hatching stage, in April-July, and (2) **Adulticiding** to reduce the population of adult mosquitoes which escaped the larvaciding program.

In conclusion, we will do our best to reduce the public annoyance aspect of this problem, as well as to protect against potential health hazards to people, horses, dogs and cattle.

Respectfully submitted,

February 21, Washington's Birthday, and April 25, Fast Day, are not included in the calendar as days off. Individual districts may wish to designate these as days out of school. If they do, it should be remembered that the school year would have to be increased by either one or two days. If one or both of these days, however, falls during a week of vacation the need for the additional one or two days is negated.

ASSISTANT HEALTH OFFICERS REPORT

The role of Health Officer covers a wide area. It brings one in contact with many agencies and individuals, who aid in making our tasks easier.

A special note of appreciation goes forth to the U.S. Fish and Wildlife Service office in Boston, for invaluable information relative to the infestation by bats in a residence. Also, gratitude to Sheriff Ira Cooke of the Rockingham County Sheriff's Department, and the N.H. Dept. of Welfare for assistance relative to child abuse cases.

Respectfully submitted,
DORRY GRACE
Assistant Health Officer

REPORT OF THE SCHOOL BOARD

Progress seems to come grudgingly, but I believe progress has been made at the George B. White School this past year. Speaking of progress in its most meaningful terms, we must speak of it in terms of people. For one reason or another, we have lost people from our faculty during this past period. Fortunately, we have filled the vacancies created with intelligent, qualified and capable personnel.

As a consequence of a warrant article at the last district meeting, it was voted to hire a Reading Specialist to assist the children of our school. Presently, with Title I assistance, we are benefiting from the services of our Reading Specialist, Mrs. Ann Hinderer, for five full days a week. The program encompasses grades 1-8, and the children are seen on either an individual basis or in small groups. The results of the program are so rewarding that the school board is recommending the hiring of Mrs. Hinderer on a full time basis for next year.

An instance where the cooperation of the faculty is evident and appreciated is at the junior high level. The number of children in the upper grades is somewhat smaller than normal this year. Miss Fortin and Mr. Shannon have volunteered to teach some 6th graders in vocabulary and math, respectively, in a type of enrichment program. As our children benefit, we appreciate their efforts greatly.

Our athletic program continues to progress with team sports in fall and spring, and an indoor hockey program during the winter. The energy and enthusiasm of Mr. Healey and Mr. Hutchinson in this area are well received.

The year saw the completion of the storage shed on the west side of the new school. Unfortunately, lightning damaged our well pump beyond repair and this had to be replaced.

The school board would like to extend our sincere thanks to the high school committee which reviewed all aspects of our present high school situation. They appraised the present scene, looked into the future and filed a report which will serve as a basis for any future work in this area.

I would like to close with a comment on a matter presented at our special school district meeting held last summer on the voucher project. This subject has taken a great deal of time and effort during the past year. Hopefully, some of the information gathered during this study period will enable us to continue to improve the George B. White School.

I would like to take this opportunity to thank faculty, staff, volunteers and all others whose contribution make the school a going concern.

Respectfully submitted,
GEORGE MENARD
Chairman

REPORT OF THE SUPERINTENDENT OF SCHOOLS

We have continued our efforts to develop a comprehensive testing program. This is made up of both the Stanford Achievement Test that is administered to the students as a group in the spring and the individualized testing that is administered by the consultants from the Central New Hampshire Mental Health Center. As we gather more information about the students, we will be in a better position to design programs to meet their individual needs.

The services delivered thru the Developmental Reading and Learning Disabilities Program have been especially helpful in meeting individual needs, and we hope to increase these services in the 1976-77 school year.

We have been successful in our initial efforts to develop a regional center that will develop special services to children. The school districts of Supervisory Union #53 have joined together with several school districts in other supervisory unions as well as the Central New Hampshire Mental Health Center for this purpose. A federal grant has been awarded to this group for the purpose of researching the needs in the area of special services as well as developing a model to meet these needs. When the model has been developed, it will be presented to the separate school boards.

We have also established a Committee for the purpose of developing a new staff evaluation system. It is expected that this Committee will deliver its report before the end of the school year so that it may be presented to the separate school boards. A Curriculum Committee has also been established. The purpose of this Committee is to study the school programs that we presently have; and to make suggestions for improvements. It is expected that through this process we will have better continuity in our programming for grades one thru eight.

The Staff Development plan for staff in-service training has been approved by the State Department of Education. The Staff Development Committee is now occupied with the second phase which is developing plans for in-service training on a local basis.

A considerable amount of time has been spent on the voucher study. This has been a most interesting experience, and the report will be presented at the annual school district meeting. Other federally mandated legislation is requiring a considerable amount of time. An example of this is the Title IX analysis that has to be

done for each community in Supervisory Union #53 before July 1, 1976.

In closing, I would like to thank the School Board, School Staff, and citizens of Deerfield for all they have done for the Deerfield children.

GERALD A. CROTEAU
Superintendent of Schools

PRINCIPAL'S REPORT

It has been interesting and rewarding to watch the activity centered and the traditional classroom coexist within the same educational program. Some students do well in an activity centered classroom where they are given more freedom to explore and learn by doing. Other students respond to the more traditional classroom environment. They respond to the structured program. In as much as we can offer both within our school is helpful to most children.

Our school library and the audio visual equipment center is being used by more students and teachers each year. Although we have many books for research and pleasure reading we are in need of many more volumes to supplement the classroom text and assigned research and reading.

Interest in the art program continues to grow. There was some thought given to offering this program to grades one through six only but at the present time we are offering art to all students in grades one through eight.

Many thanks should go to Mrs. Linda Tuttle for heading our New Hampshire School Volunteer Program. This has been most successful and highly regarded by staff and administration. Many hours each week are given by these volunteers to help the students and assist in the library. The best part of this program is bringing people of the community in closer touch with the educational program in our school.

The Concord Mental Health program has been extremely helpful as a referral agency. We now have someone to assist and advise us concerning children with academic problems. This program allows us to have children tested and evaluated. If the student needs special help or a planned educational program we are so advised. It would be almost impossible to help children in trouble without such a program and its dedicated staff.

We are very proud of our Physical Education and sports program. The credit for the introduction and advancement of this program must go to Mr. Healey.

In closing let me thank the PTO for their programs and help during the year. I would like to thank the school board for their interest and dedication in improving our educational system.
